

Tipco Industries Limited

PRODUCT INFORMATION

Category	Tipcolite[®] - Advanced Phenolic Moulding Compound
Grade Name	THR 211/38 NA
Features	Mineral and Wood Flour Reinforced Phenolic Moulding Powder with Low Shrinkage, Good Surface Finish, Mechanical & Electrical Properties, suitable for Transfer and Compression Moulding
Applications	Industrial and Automotives
Components	Switch Gear Parts, HRC Fuses, Commutator Components, etc.

Typical Property	Method	Units	Typical Value
Specific Gravity	TRN-33	—	1.47
Apparent Density	TRM-37	grams/cc	0.7
