

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **THS 191/05**

Features **Chindi Reinforced Phenolic Moulding Compound in Fluffy Form with Soft Flow, Good Mechanical Strength, Low Water Absorption, suitable for Compression Moulding. Available in brown.**

Applications **Defense Components**

Components **Critical Ordinance Parts**

Typical Property	Method	Units	Typical Value
Apparent Density	TRM-37	grams/cc	Fluffy
Specific Gravity	TRN-33	—	1.43
