

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **TMHS 291/05**

Features **Chindi Reinforced Phenolic Moulding Compound in Fluffy Form, with Soft Flow, Good Mechanical Properties, suitable for Compression Moulding Brown in colour.**

Applications **Defense Components**

Components **Critical Ordinance Parts , Textile & Industrial Parts**

Typical Property	Method	Units	Typical Value
Specific Gravity	TRN-33	—	1.43
Apparent Density	TRM-37	grams/cc	fluffy
