

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **VASW 200/07**

Features **Long Glass Fibre Reinforced Phenolic Moulding Compound in Fluffy Form, Soft-Medium Flow, Very High Tensile, Impact & Cross-Breaking Strength, Good Electrical Properties, Dimensional Stability, suitable for Compression Moulding**

Applications **Defense, Industrial and Electricals**

Components

Typical Property	Method	Units	Typical Value
Apparent Density	TRM-37	grams/cc	<b>Fluffy</b>
Specific Gravity	TRN-33	—	<b>1.79</b>
