

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **TEL 211/01**

Features **Nylon and Glass Fiber Reinforced Phenolic Moulding Compound with low Shrinkage, Good Mechanical Strength and High Moisture Resistance, suitable for Compression and Transfer Moulding**

Applications **Automotives, Electrical and Electronics**

Components **Railway Signals Relay-Base & Covers, Energy Meter-Base & Covers**

Typical Property	Method	Units	Typical Value
Apparent Density	TRM-37	grams/cc	<b>0.45</b>
Specific Gravity	TRN-33	—	<b>1.45</b>
