

PRODUCT INFORMATION

Category **Tipcolite[®] - Advanced Phenolic Moulding Compound**

Grade Name **THD 111**

Features **Glass Fiber and Mineral filled Phenolic Moulding Powder With fines Controlled, medium soft flow, Good Surface Finish, Good Mechanical and Electrical Properties, suitable for Compression Moulding, In Black Colour**

Applications **Electrical, Electronics and Industrial**

Components **Commutator Components, etc.**

Typical Property	Test Method IS 867-1963	Units	Typical Value
Specific Gravity	Clause 6	—	1.72
Apparent Density	Clause 5	grams/cc	0.80
