

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **VASW 150/I**

Features **Glass Fiber and Mineral filled Phenolic Moulding Powder With fines Controlled, medium soft flow, Good Surface Finish, Excellent Mechanical and Electrical Properties, suitable for Injection & Transfer Moulding**

Applications **Electrical, Electronics and Industrial**

Components **Solenoid cap, Commutator Components, etc.**

Typical Property	Method	Units	Typical Value
Specific Gravity	TRN-33	—	1.65 – 1.75
Apparent Density	TRM-37	grams/cc	0.65 – 0.75
