

PRODUCT INFORMATION

Category	Speciality Filled & Reinforced Polypropylene Compound
Grade Name	X 408 IN
Features	Impact Modified Polypropylene Compound with good Rheological Properties, High Mechanical Strength, good Heat, UV Stability & Paintability
Application	Automotive – Honda Exterior
Component	Bumpers, Facia, Weather Strips & Body Side Moulding

Typical Properties	Method HES D2502	Units	Typical Value
Melt Flow Index	4.8	gms/10min	20
Specific Gravity @ 23°C	4.15	—	0.99
