

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **TG 221/19**

Features **Medium-Soft Flow, Wood Flour and Mineral Reinforced Phenolic Moulding Powder in Brown Colour with Good Surface Finish, Dimensional Stability, Excellent Mechanical & Electrical Properties, suitable for Compression Moulding**

Applications **Electrical and Electronics**

Components **Electrical Accessories, Connectors, Lamp Sockets, etc.**

Typical Property	Method	Units	Typical Value
Specific Gravity	TRN-33	—	1.405
Apparent Density	TRM-37	grams/cc	0.7
