

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **TG 617/12 H**

Features **Medium Flow, Wood Flour and Mineral Reinforced Phenolic Moulding Powder with Controlled Fines, Good Surface Finish, Dimensional Stability, Pelletizing-ability, Excellent Mechanical and Electrical Properties, suitable for Compression and Transfer Moulding**

Applications **Electrical and Electronics**

Components **Electrical Accessories, Fuse Boxes, etc.**

Typical Property	Method	Units	Typical Value
Specific Gravity	TRN-33	—	1.385
Apparent Density	TRM-37	grams/cc	0.70
