

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **TMS 311/43**

Features **Medium Flow, Wood Flour, Inorganic Filler & Cellulose Reinforced Phenolic Moulding Powder in Fluffy Form, with Good Surface Finish, Dimensional Stability Excellent Impact and Electrical Properties, suitable for Compression Moulding**

Applications **Industrial and Automotives**

Components **Coils, Bobbins, etc.**

Typical Property	Method	Units	Typical Value
Apparent Density	TRM-37	grams/cc	0.42
Specific Gravity	TRN-33	—	1.385
