

PRODUCT INFORMATION

Category **Tipcolite[®] - Advanced Phenolic Moulding Compound**

Grade Name **Tipcolite IN 3545**

Features **Glass & Mineral Reinforced Phenolic Moulding Powder With Good Surface Finish, Low Shrinkage, Excellent Mechanical and Thermal Properties, suitable for Injection & Transfer Moulding.**

Applications **Automobile, Electrical & Electronics**

Components

Typical Property	Method	Units	Typical Value
Density	ISO1183	g/cm ³	1.65
Apparent Density	ISO60	g/cm ³	0.75
