## PRODUCT INFORMATION

## Tipco Industries Private Limited

Category	Tipcolite <sup>®</sup> - Advanced Phenolic Moulding Compound		
Grade Name	Tipcolite IN 3545		
Features	Glass & Mineral Reinforced Phenolic Moulding Powder With Good Surface Finish, Low Shrinkage, Excellent Mechanical and Thermal Properties, suitable for Injection & Transfer Moulding.		
Applications	Automobile, Electrical & Electronics		
Components			

Typical Property	Method	Units	Typical Value
Density	ISO1183	g/cm3	1.65
Apparent Density	ISO60	g/cm3	0.75
