

PRODUCT INFORMATION

Category **Tipcolite® - Advanced Phenolic Moulding Compound**

Grade Name **VASW 200/07S**

Features **Short Glass Fibre Reinforced Phenolic Moulding Compound in Fluffy Form, Soft-Medium Flow, Very High Tensile, Impact & Cross-Breaking Strength, Good Electrical Properties, Dimensional Stability, suitable for Compression Moulding**

Applications **Defense, Industrial and Electricals**

Components **Very High Strength, HDT and Electrical Applications, Ordinance Parts**

Typical Property	Method	Units	Typical Value
Apparent Density	TRM-37	grams/cc	Fluffy
Specific Gravity	TRN-33	—	1.79
